## PERSONAL PROJECTS

### Personal Portfolio Website (React-based)

- Developed a responsive portfolio website using React.js to showcase personal projects and skills.
- Integrated features like dark mode, smooth scrolling, and interactive project cards.
- Designed clean UI with custom styling and modern web design practices.
- Hosted on GitHub for easy access and professional presentation..

### Quiz Website (React-based)

- Built a quiz application using React.js with dynamic questions, timer, and final score display.
- Used React Hooks for managing state and side effects.
- Implemented timer countdown and automatic submission on time-up.
- Showed results with score and correct answers after quiz completion.

### E-Commerce Website (PHP-based)

- Developed a fully functional e-commerce website using PHP, HTML, CSS, and MySQL.
- Implemented product listing, cart functionality, and order processing.
- Included features like user registration/login and admin panel for managing products.
- Focused on creating a clean UI and secure backend logic.
